

FASTER REPORTS. FASTER PROFITS.

Virtual Energy Manager (VEM) Online is an advanced, easy-to-use software package from Enerwise that allows you to manage complex energy markets from your desktop.

Our program includes these features:

- One-click access to valuable reports, profiles, threshold analysis and benchmarking
- Easy-to-use, powerful report definition tools
- Multiple report windows to compare and contrast interrelated data, allowing you to explore cause-and-effect relationships
- Pre-programmed settings that let you create and edit threshold e-mail notifications and easily access triggered event data
- Simplified reporting that enables you to categorize and store favorite reports for one-click recall and save generic report templates to apply to different sites

Each component of this software has been designed to make it easier than ever before to manage your company's energy and save money.

ABOUT ENERWISE

Enerwise Global Technologies, established in 1980, is a leader in demand-response, energy infrastructure management and renewable energy services for commercial, institutional and industrial customers. We enable customers to reduce energy costs, comply with increasingly demanding environmental regulations, take advantage of alternative power initiatives, increase operational security and improve reliability. We deliver responsive, well-tested energy solutions, ranging from remote power monitoring and control systems to energy history analysis and real-time demand-response solutions.

Our systems and staff work around the clock to make sure you're always running smoothly and efficiently. Other companies depend on us to solve their energy problems; let us help you with yours.

For more information, log on to our Web site at www.enerwise.com, call 800.307.3395 or e-mail sales@enerwise.com.
